1. The drawings have been approved.

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-40 rejected under 35 U.S.C. 103(a) as being unpatentable over Brodeur (670,763).

Brodeur show a self locating fastening means with a socket 10 for securing a device 1 by sliding a portion thereof with a tab 3 and a finger 2 and a fillet as part of 2. It would have been obvious to one having ordinary skill in the art at the time the invention was made to use the device on a aircraft to secure a machine to the floor and that machine would be obvious to be a galley cart etc.

3. It is noted that in claim 1 line 6, the first "said" should be an "a" and in the penultimate line the "a" should be a "said" and "assembly" should be "member" as in line 3 or visa-versa.
